***Seek Me and Find Me***

***Clearing the Heart Debris that Separates us from God*** is an overview of factors working against hearing God and enjoying His presence. But clearing heart debris calls for an environment with systematic, ongoing tools for unraveling and replacing the lies, half-truths, or outright deceit which have choked our relationship with the Lord. Several books will follow this one; their purpose is to be such an environment—inssofar as possible in book form. The books to follow in the ***Seek Me and Find Me*** series are:

***Foundations for Hearing God***

Where did we get our impressions of God and self? How accurate are they?

***Attitudes of Being***

Kingdom vs. natural attitudes and ways for exchanging ours for His.

***Being the Church***

Acts—hearing and responding to the Lord are key elements in being the church.

***Kingdom of Priests***

Restored identity frees believers, as their motives are continually refined.

***Communing with Self and the Lord on the Way to Oneness***

Examples from Suzan's journals of encounters with the Lord that have replaced heart debris—her witness to how this life-style with God might unfold.
